Work Experience

Microsoft | Software Engineer | August 2016 – Present

- Implement features in Word Online that offer intelligent design suggestions to users for their documents
- Contributed to the rewrite of Sway's web renderer using a modern web stack of React, Webpack, TypeScript, and MobX
- Added the capability for business users to add custom brand colors and logos to Sways

Microsoft | Software Engineer Intern | May 2015 – August 2015

- Build tenant provisioning tools for SharePoint using C# and PowerShell in order to allow developers to create test users for their scenarios

Microsoft | Explorer Intern | May 2014 – August 2014

- Assisted the SharePoint Team with the process of examining reliability and performance data by developing a dashboard that visually displays the data in C# and HTML/CSS/JavaScript
